WHO WE ARE

Team4AI is an AI-first product studio — **not a consulting firm**. We design, build, and operate AI agents, automation platforms, and intelligent applications that create lasting value for real businesses. Every product is architected around AI from day one, shipped in weeks, and built to scale.

● **AI-first by design**
Every product built around AI from the ground up — never bolted on.

● **We ship fast**
From concept to live product in weeks. We iterate quickly.

● **Real-world impact**
We cut costs, grow revenue, and save time for real businesses.

OUR AI PRODUCTS

Intradata Nexus

LIVE

PROPERTY TECH

All-in-one platform for smart-home automation, managed internet, VoIP, IoT security, and property management across 48 states.
